ABOUT ME

I'm a librarian-turned-coder looking for a job in Front-End Web Development. I work primarily with Javascript/React.

PROJECTS

Movie Finder [\[Website Link\]](#) [\[Github Link\]](#)

An app that pulls movie info from The MovieDB API. Users can search films or see what's currently in theaters or coming soon. Built with React, Typescript, and Tailwind.

Typing Blitz [\[Website Link\]](#) [\[Github Link\]](#)

An arcade-style typing game built using React and React Bootstrap. The game generates random words using the random-words library.

React Super Store [\[Website Link\]](#) [\[Github Link\]](#)

An e-commerce project using React, Context API w/ Hooks, Bootstrap, and the Super Store API.

Background Blender [\[Website Link\]](#) [\[Github Link\]](#)

A background blend mode sandbox that pulls random photos from an external API and blends them with a specified color.

Name Diviner [\[Website Link\]](#) [\[Github Link\]](#)

An app that uses 3rd party API data to make predictions about a person based on their name.

WORK EXPERIENCE (ABRIDGED)

City College of San Francisco

Librarian | 2017 - Present

San Francisco, CA

- Answered hundreds of reference questions a year and taught library classes at a busy community college library
- Part of the book purchasing team for Computer Networking and Computer Science disciplines
- Helped plan the library's 3D printing lab

College of Alameda

Librarian | 2019 - Present

Alameda, CA

- Overhauled dozens of pages of library tutorials for students
- Responsible for book purchases in Computer Networking and Computer Science
- Answered in-person and instant message reference questions
